

# Indiana Crop Weather

## Dry Spell Continued

Another dry week left many growers throughout the State hoping for rain, according to Nathanial Warenski, State Statistician, USDA NASS, Indiana Field Office. Soil moisture levels decreased somewhat from the previous week, with 29 percent of topsoil moisture reported as adequate or surplus.

The average temperature for the week was 66.3 degrees Fahrenheit, 2.9 degrees below normal for the State. The amount of rainfall varied from none to 1.40 inches over the week. The statewide average precipitation was 0.14 inches, 0.88 inches below normal. There were 6.4 days suitable for fieldwork for the week ending June 11.

Corn and soybean conditions declined from the previous week due to the continued lack of rainfall. Corn and soybean emergence neared completion and both crops continued ahead of their respective five-year averages. Winter Wheat headed progress also neared completion. Winter wheat condition remained stable from the previous week with 75 percent of the crop rated in good to excellent condition. First cuttings of alfalfa and other hay were also nearing completion. Additional rainfall will be needed soon to encourage hay and pasture regrowth. Livestock were reportedly doing well despite the dry conditions. Pasture conditions declined from the previous week with 48 percent of pastures rated in good to excellent condition. Other activities for the week included herbicide and pesticide applications, fair preparations, acreage reporting, and irrigation system maintenance.

### Soil Moisture: Week Ending 06/11/23

Item	Very short	Short	Adequate	Surplus
	(percent)	(percent)	(percent)	(percent)
Topsoil moisture .....	29	42	28	1
Subsoil moisture .....	24	42	34	0

### Crop Progress: Week Ending 06/11/23

Crop/Activity	Percent Completed			
	This week	Last week	Last year	5 Year average
Days Suitable for Fieldwork .....	6.4	6.9	NA	NA
Corn Emerged.....	94	85	87	82
Soybeans Emerged.....	90	78	78	71
Winter Wheat Headed.....	96	90	95	94
Winter Wheat Mature .....	29	7	13	19
Alfalfa Hay 1st Cutting.....	94	85	71	73
Other Hay 1st Cutting .....	89	75	61	66

### Crop Condition: Week Ending 06/11/23

Crop	Very poor	Poor	Fair	Good	Excellent
	(percent)	(percent)	(percent)	(percent)	(percent)
Corn .....	3	7	35	49	6
Soybeans.....	4	7	33	50	6
Winter Wheat.....	2	5	18	54	21
Range and Pasture....	4	9	39	43	5
